

Zapier MCP Environment challenge

DECEMBER 2025

Connect your AI to any app with Zapier MCP

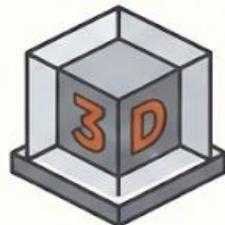

Zapier MCP (Model Context Protocol) connects Claude, ChatGPT, and other AI tools to 8,000 apps. Trigger actions, automate workflows, and integrate instantly, no custom back-end required.

THE GOAL

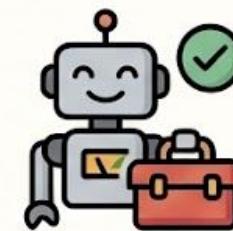

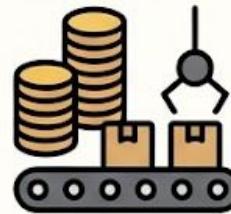

Make it cheaper and easier
to RL agents using Zapier
MCP

THE CHALLENGE

Create an environment with the
most useful mock of Zapier MCP

REALISTIC

USEFUL

(RELATIVELY)
AFFORDABLE AT SCALE

GRAND PRIZE

An interview for a role at Zapier (and an extra surprise)!

-  Dates: Dec 2 - Dec 31
-  Submit a link to your public Github repo to
<https://submit-github-link.zapier.app/submit-link-abcd>
-  Top 3 will be considered for an interview, winner gets an extra surprise

See [PrimeIntellect-ai/mcp-demo](https://github.com/PrimeIntellect-ai/mcp-demo) for examples on MCP mock environments
